Gentlemen:

This office has received a copy of your May 9, 1979 application which you filed with the Office of Nuclear Reactor Regulation for review and approval of an extension of the expiration date set forth in Construction Permit No. CPPR-105 for Unit No. 2 of the Beaver Valley Station. The application was not accompanied by an amendment fee as prescribed by Section 170.22 of 10 CFR 170. Section 170.12(c) requires that your Company provide a proposed determination of the amendment class, state the basis therefor, and submit the fee with your application for amendment.

We have determined from our preliminary review that the requested action falls into Class II (\$1,200) because it is of an administrative nature. You should forward the amendment fee of \$1,200 promptly to this office. Fees are payable to the U.S. Nuclear Regulatory Commission by check, draft, or money order. If after the final evaluation of your application is completed it is determined that it was incorrectly classified, you will be billed for any additional amount due.

If we can be of assistance to you, call 301/492-7225.

Sincerely,

A handwritten signature in cursive script, reading "Reba M. Diggs".
