Docket Nos. STN 50-477
STN 50-478

ORDER

December 22, 1978

On February 22, 1978, we suspended indefinitely our review of the Licensing Board's ruling refusing to disqualify itself, which had been referred to us in accordance with 10 CFR 2.704(c). The applicant has now given notice that it is withdrawing its application for construction permits. The disqualification motion is therefore moot. The matter before us is accordingly dismissed.

It is so ORDERED.
