Security Plan Implementation

Pursuant to discussions with the Security Team Leader from the Reactor Safeguards Licensing Branch, we have prepared information on the status of Security Plan implementation for the Prairie Island Nuclear Generating Plant. Attached are five copies of Enclosure A, which provides detailed information on Security Plan implementation.

We conclude that the effectiveness of the Prairie Island Security Plan would be adversely affected by public disclosure of the attached information, and that disclosure is not required in the public interest. We request that pursuant to Section 2.790(d) of 10CFR Part 2, the Security Plan revisions not be made available for inspection, and not be placed in the Public Document Room.
