Environmental and Scientific Affairs
U.S. Department of State
Washington, D.C. 20520

Dear Mr. Cooper:

Enclosed please find an application from Harubeni America Corporation for a license to export 3,799 kilograms uranium enriched to 3.90% uranium-235 for use as reload fuel for the Fukushima I, Unit 4 reactor in Japan.

Before taking action on this license application, we would appreciate your views, in accordance with established procedures and from the overall perspective of the Executive Branch, as to whether the issuance of the requested license would be inimical to the interests of the United States, including the common defense and security, and whether the proposed export meets the applicable criteria in the Atomic Energy Act as amended by the Nuclear Nonproliferation Act of 1978.

Sincerely,

Original signed by
