Nuclear Pharmacy, Inc.  
ATTN: Mr. Nunzio DeSantis  
District Manager  
319 W. Ontario Street  
Chicago, IL 60610

License No. 12-18044-01MD

Gentlemen:

This refers to your closeout survey submitted to us in your letter of February 14, 1980 and to the confirmatory survey made by this office on February 28, 1980 of your Watertower Place facility at 845 N. Michigan Avenue, Suite 991W.

Our confirmatory survey results are consistent with the results submitted to us in your closeout radiation survey of the Watertower Place facility. We detected no beta or gamma radiation levels above natural background. A review of your survey shows similar results. Our detailed survey results will be sent to you in the inspection report on your Ontario Street facility.

Since your survey shows that your facility meets our guidelines for decontamination, we have no objection to the release of your Watertower Place facility for unrestricted use. If you have any additional questions on this matter, please contact Carl J. Paperiello, (312) 932-2511, of this office.

Sincerely,

POOR ORIGINAL

James G. Keppler  
Director
