Division of Operating Reactors  
U. S. Nuclear Regulatory Commission

Dear Sir:

Attached are three signed originals and 40 conformed copies of License Change Application 53 requesting amendment of Operating License NPF-1. This License Change Application has been evaluated to be a Class III amendment request and a check for \$4000 is attached in accordance with 10 CFR 170. Five copies of the revised pages to the Trojan Nuclear Plant Security Plan, PGE-1017, Revision 4 (Attachment 1 to LCA 53), are being sent to Robert Clark under separate cover as directed.

We would like to take this opportunity to state our position on the implementation of the Contingency Plan. 10 CFR 73.40(b) states that "For nuclear power plants, the (Contingency) plan shall become effective 30 days after approval by the Commission". To this end, it is our intention to implement the training for this Contingency Plan only insofar as the training required for implementation coincides with the training outlined in Section 1.4.3, "Training", in our approved Security Plan. Any additional training required for implementation will be performed in accordance with 10 CFR 73.55, Appendix B, and will be accomplished within 2 yr after our Training Plan, which will be submitted to the Commission prior to August 19, 1979, receives approval by the Commission.

PGE has transmitted a copy of this request to the Oregon Department of Energy for their consultation.
