On Friday, April 6, 1979 I received the subject telephone call. Mr. Cochran stated he had had informal conversations with Mr. North Bateman of the Department of Energy concerning the suitability of the burial grounds at West Valley. He stated that he had agreed to informally inquire about the environmental acceptability of the burial grounds for Mr. Bateman. I suggested that he call the Low Level Waste Branch (Paul Lohaus). I informed Mr. Lohaus of this conversation.
