Jamesport Nuclear Power Station - Units 1 & 2
Inspection & Enforcement Bulletin No. 79-11
Docket Nos. 50-516
 50-517

Dear Mr. Grier:

In reply to Inspection & Enforcement Bulletin No. 79-11, we have reviewed the Jamesport Nuclear Power Station (JNPS) design and submit the following response.

Purchase orders for circuit breakers in safety related systems have not been placed for JNPS. Accordingly, the particular circuit breakers which will be used are not known at this point in time. Westinghouse DB-50 and DB-75 circuit breakers may ultimately be used in safety related application in JNPS, however, prior to issuance of purchase orders, we will ensure that the concern raised by this Bulletin has been successfully corrected by the vendor(s).

Should you require further information, please do not hesitate to contact us.

Very truly yours,

R. E. Plaskon
Assistant Project Manager
Jamesport Nuclear Power Station

LG/dm
