Docket No. 30-4576

Technical Operations, Incorporated
ATTN: Mr. R. Landauer
Group President
40 North Avenue
Burlington, Massachusetts 01813

Gentlemen:

Subject: Inspection 30-4576/80-01

This refers to a telephone conversation between Mr. J. Munro of your staff and Mr. J. Kinneman of this office on April 29, 1980. Mr. Munro pointed out that the cover sheet for the referenced inspection was in error in that, under "Areas Inspected" it identified the location as "...40 North Avenue...." We agree that the close-out survey was actually performed at your facility at 40 South Avenue. Enclosed is a corrected first page for the subject report. The corrected page and this letter will receive the same distribution as the original report including placement in the NRC's Public Document Room.

Thank you for calling this matter to our attention.

Sincerely,

Gilbert W. Crocker, Acting Chief
Materials Radiological Protection
