Dear Betty:

The purpose of this letter is to request an amendment as soon as possible to Export Licenses XSNM01401 and XSNM01356. These licenses need to be amended to reflect a shipment to proceed from Texas Nuclear to

Ramsey REC, Ltd.
385 Enford Road
Richmond Hill, Ontario, Canada
L4C 3G2

and for furtherance then to the ultimate consignee as designated.

Both of these units need to have some additional sample work run at Ramsey REC. This sample work cannot be duplicated at Texas Nuclear. No other conditions have changed. All of the ultimate consignees, etc. are correct. Ramsey REC is currently licensed to import these units from us.

We would appreciate your timely action and let me thank you in advance for your helpful cooperation. If you need any additional details, please call me.

Sincerely,

TEXAS NUCLEAR DIVISION
