The provision of the aforementioned documents will complete NCPA's production in the Stanislaus/Helms Creek proceedings of those documents selected by PG&E during its search of the files of the NCPA Executive Director and Secretary in the NCPA central files in Santa Clara, California. These documents will also substantially complete NCPA's production in FERC Docket No. E-7777 (II). Pursuant to the agreement of counsel reached during the conference held on January 10, 1979 (C-131-132), you designated, in your letter of January 12, 1979, the six member cities of NCPA to be searched in response to your data requests and interrogatories of November 28, 1978. The discovery process in those six cities is in the final stages of completion and those documents will be provided to you as soon as they become available.

We will send PG&E an invoice for the costs incurred in reproducing these 28,045 pages under separate cover in the future.

Very truly yours,

John Michael Adragna

Attorney for Northern California  
Power Agency and its members
