Mr. Jack T. Sutherland, Chief
Fuel Facility and Materials
Safety Branch
U. S. Nuclear Regulatory Commission
Region II
230 Peachtree Street, N. W.
Atlanta, Georgia 30303

Ref: USNI-SCW-9015

Dear Mr. Sutherland:

In accordance with your letter dated February 1, 1979, U. S. Nuclear will review the termination reports of all employees. Any reports which are found to be deficient will be corrected and a letter will be sent to the employee with the corrected information. Since U. S. Nuclear does not intend to do any additional work with the handling of radioactive materials, this situation is not expected to arise in the future. In the event U. S. Nuclear should handle radioactive materials in the future, U. S. Nuclear will initiate a second review of the letter prior to their being sent. Full compliance is expected by May 1, 1979.

Yours very truly,

Sam C. Weaver
Sam C. Weaver
President
