DETAILS

1. Persons Contacted

*R. Bishop, Technical Staff Supervisor
C. Schoeder, Assistant Technical Staff Supervisor
F. Lawless, Rad/Chem Supervisor
G. Myrick, Health Physicist

*Present at the exit interview.

2. General

This inspection, which began at 8:30 a.m. on June 18, 1979, was conducted to examine organizational changes; progress made in development of radiation procedures; and construction of radiation protection, chemistry, and radwaste facilities. During this brief inspection, the inspectors toured several areas under construction.

Since the last inspection (50-373/79-03), insufficient progress has been made in the areas reviewed to warrant extensive inspection at this time.

3. Organization

Since the last inspection (50-373/79-03), C. Schroeder has been promoted to Assistant Technical Staff Supervisor, F. Lawless to Rad/Chem Supervisor, and L. Shearer to Chemist.

Qualification requirements for persons holding the positions Rad/Chem Supervisor and Chemist are listed in AECI N18.1. Qualifications of persons currently holding these positions will be reviewed during the next inspection.

4. Exit Interview

The inspectors met briefly with a licensee representative (denoted in Paragraph 1) at the conclusion of the inspection on June 18, 1979. The inspectors discussed with the licensee the timetable for conducting preoperational inspections of the radiation protection program and testing of radwaste systems.
