Office of the Secretary of the Commission

SUBJECT: **THREE MILE ISLAND UNIT 1**
Metropolitan Edison Company, Jersey Central Power and Light Company and Pennsylvania Electric Company

Two signed originals of the Federal Register Notice identified below are enclosed for your transmittal to the Office of the Federal Register for publication. Additional conformed copies (**12**) of the Notice are enclosed for your use.

☐ Notice of Receipt of Application for Construction Permit(s) and Operating License(s).

☐ Notice of Receipt of Partial Application for Construction Permit(s) and Facility License(s): Time for Submission of Views on Antitrust Matters.

☐ Notice of Availability of Applicant's Environmental Report.

☐ Notice of Proposed Issuance of Amendment to Facility Operating License.

☐ Notice of Receipt of Application for Facility License(s); Notice of Availability of Applicant's Environmental Report; and Notice of Consideration of Issuance of Facility License(s) and Notice of Opportunity for Hearing.

☐ Notice of Availability of NRC Draft/Final Environmental Statement.

☐ Notice of Limited Work Authorization.

☐ Notice of Availability of Safety Evaluation Report.

☐ Notice of Issuance of Construction Permit(s).

☒ Notice of Issuance of Facility Operating License(s) or Amendment(s).

☐ Other: _____

[Docket No. 50-409]

DAIRYLAND POWER COOPERATIVE

Issuance of Amendment to Provisional Operating License

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 5 to Provisional Operating License No. DPR-45 issued to Dairyland Power Cooperative which revised Technical Specifications for operation of the La Crosse Boiling Water Reactor (the facility), located in Vernon County, Wisconsin. The amendment is effective as of its date of issuance.

The amendment revises the Technical Specifications for the facility to incorporate increased interim surveillance requirements for the high energy fluid piping outside containment pending completion and acceptance of certain modifications to the facility to assure that it will withstand the consequences of postulated ruptures in the high energy fluid piping outside containment without loss of capability to achieve and maintain safe shutdown of the facility as required by the Commission's regulations.

The Commission has made appropriate findings as required by the Atomic Energy Act of 1954, as amended, and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Notice of Proposed Issuance of Amendment to Provisional Operating License in connection with this action was published in the FEDERAL REGISTER on October 16, 1974 (39 F.R. 36993). No request for a hearing or petition for leave to intervene was filed following notice of the proposed action.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR § 51.5(d)(4) an environmental statement, negative declaration or environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the Commission's letters to the licensee dated December 18, 1972, January 16, 1973, and April 8, 1974, (2) the licensee's filings dated January 17, 1974, August 15, 1974, January 23, 1975, and January 12, 1976, (3) Amendment No. 5 to License No. DPR-45, and (4) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. and at the La Crosse Public Library, 800 Main Street, La Crosse, Wisconsin.

A copy of items (1), (3), and (4) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland, this 5th day of April 1976.

For the Nuclear Regulatory Commission.

ROBERT W. REID,
Chief, Operating Reactors Branch No. 4, Division of Operating Reactors.

[Docket No. 50-289]

METROPOLITAN EDISON CO. ET AL.

Issuance of Amendment to Facility Operating License

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 14 to Facility Operating License No. DPR-50 issued to Metropolitan Edison Company, Jersey Central Power and Light Company, and Pennsylvania Electric Company which revised Technical Specifications for operation of the Three Mile Island Nuclear Station, Unit 1 (TMI-1) located in Dauphin County, Pennsylvania. The amendments is effective as of its date of issuance.

The amendment revises the Technical Specifications to modify the tendons selected for inspection in TMI-1 Tendon Surveillance Program.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment are not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that, pursuant to 10 CFR § 51.5(d)(4) an environmental statement, negative declaration or environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated December 29, 1975, (2) Amendment No. 14 to License No. DPR-50, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C., and at the Government Publications Section, State Library of Pennsylvania, Box 1601 (Education Building), Harrisburg, Pennsylvania.

A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland, this 1st day of April, 1976.

For the Nuclear Regulatory Commission.

ROBERT W. REID,
Chief, Operating Reactors Branch No. 4, Division of Operating Reactors.

[Docket No. 50-298]

NEBRASKA PUBLIC POWER DISTRICT

Withdrawal of Application for Amendment to Facility Operating License

The Nebraska Public Power District (the licensee) of Columbus, Nebraska, by letter dated February 5, 1976, has requested withdrawal of its application dated December 2, 1975, for amendment to Facility Operating License No. DPR-46. License No. DPR-46 authorizes the licensee to possess and operate the Cooper Nuclear Station (the facility) located in Nemaha County, Nebraska, at power levels up to 2381 megawatts (thermal). The application for license amendment requested revisions to the Technical Specifications appended to the license relating to the limiting safety system setting for initiation of main steam line isolation valve closure from a main steam line low pressure signal.

The Nuclear Regulatory Commission (the Commission) grants the licensee's request for withdrawal of the application. Notice of Proposed Issuance of Amendment to Facility Operating License relating to the December 2, 1975 application was issued by the Commission on January 14, 1976, and published in the FEDERAL REGISTER on January 22, 1976 (41 FR 3358).

A copy of (1) the licensee's letter dated February 5, 1976, withdrawing the application for license amendment, (2) the application dated December 2, 1975, and (3) the Notice of Proposed Issuance dated January 14, 1976, are available for public inspection at the Commission's Public Document Room at 1717 H Street, N.W., Washington, D.C., and at the Auburn Public Library, 118-15th Street, Auburn, Nebraska 68305.

Dated at Bethesda, Maryland, this 2nd day of April, 1976.
