

APR 22 1974

Docket No. 50-289

Note to Files:

The operating license for Three Mile Island Unit 1 was signed and issued on April 19, 1974. Prior to releasing the license, I spoke to the applicant's Project Manager, R. Heward, and the Assistant Project Manager, R. Burns, and obtained from them a commitment that they would immediately issue a letter to AEC Regulatory Operations to resolve exceptions as indicated in the RO memorandum from J. G. Davis to A. Giambusso of April 18, 1974.

R. M. Bernero, Project Manager
Light Water Reactors Branch No. 2-3
Directorate of Licensing
