

JUN 1 1974

Docket No. 50-289

Daniel R. Muller, Assistant Director for Environmental Projects, L
THRU: Wm. H. Regan, Jr., Chief, EP-4, L Original signed by
Wm. H. Regan, Jr.

MAY 28, 1974 MEETING WITH METROPOLITAN EDISON COMPANY
(THREE MILE ISLAND 1)

On May 28, 1974, a meeting was held in Bethesda with METED for a technical discussion to clarify radiological portions of the Technical Specifications, Appendix B.

The discussion centered on the "Proposed Technical Specifications for Three Mile Island, Unit 1." These proposed Tech Specs are the new "standard" Tech Specs developed by ETSB implementing the results of the Appendix I Hearings.

Many points were raised by METED regarding sampling requirements and techniques. Some of these were resolved during the meeting. The other issues raised were taken back to ETSB to be resolved.

ETSB will furnish me the final version of the TMI-1 radiological effluent Tech Specs during the week of June 3, 1974.
