February 13, 1980

MEMORANDUM FOR: Victor Stello, Director, IE
Harold Denton, Director, NRR

FROM: Roger J. Mattson
TMI-2 Action Plan Steering Group

SUBJECT: NTOL RESOURCE AND REPROGRAMMING ESTIMATES

On February 12, 1980, you provided to the Steering Group, informally, your initial assessment of the impact on operating programs of implementing NTOL actions approved by the Commission on February 7. Subsequently, it became clear that a more thorough review by office directors of resources required to implement the NTOL actions was necessary. After you review, we need revised resource summary tables which explain the basis for the revised estimates. Additionally, we would like your current estimate of what reprogramming actions you would take to implement NTOL actions. Your response by February 19 will allow us to factor these resources and considerations into draft 3 of the TMI Action Plan.
