JUL 6 1983

Philadelphia Electric Company
ATTN: Mr. R. S. Fleischmann
Station Superintendent
RD 1
Delta, Pennsylvania 17314

Dear Mr. Fleischmann:

Messrs. H. Kersh and J. Coley of the U.S. Nuclear Regulatory Commission are currently on assignment at Peach Bottom to conduct certain confirmatory measurements relative to non-destructive examination of RHR and recirculation piping in Unit 2. Because of the nature of this assignment, it is necessary that these personnel be permitted to accumulate occupational exposure up to two Rem for the current calendar quarter. We understand from discussions between J. R. White of our office and Messrs. A. Hilsmeier and N. Gazda of your staff on July 6, 1983, that such exposure accumulation will be accommodated and controlled by your administrative exposure control system; and that health physics coverage will be provided for these personnel in accordance with your normal radiation protection procedures. If our understanding is not correct, please contact J. R. White at (215) 337-5373 upon receipt of this letter.

Thank you for your cooperation in this matter.

Sincerely,

Original Signed By:

Thomas E. Murley
Regional Administrator
