OCT 08 2019

Mustafa H. Mahmoud Hassan, M.D.
Chief Executive Officer
Heart Rhythm Clinic of Michigan
1386 S Linden Rd.
Flint, MI 48532

SUBJECT: NRC CONSENT TO DIRECT LICENSE TRANSFER,
NRC LICENSE NO. 21-32110-01

Dear Dr. Hassan:

By letter dated June 28, 2019, Michigan Cardiology, P.C. submitted to the U.S. Nuclear Regulatory Commission (NRC) a request for consent to a direct license transfer of NRC Materials License No. 21-32110-01 pursuant to a purchase agreement with Heart Rhythm Clinic of Michigan. The letter is available electronically from the NRC's Agencywide Documents Access and Management System (ADAMS) at Accession Nos. ML19192A259 and ML19213A116. Based on the information provided, Heart Rhythm Clinic of Michigan became the owner of Michigan Cardiology, P.C. Further, we understand that this transfer will not result in any change to the licensed materials, locations of use of licensed material, or the Radiation Safety Officer responsible for the oversight of the licensee's radiation safety program.

Based on the above understandings and as more fully detailed in the enclosed NRC staff's Safety Evaluation Report which documents the NRC staff's review of the request, we have no objection to the transfer of License No. 21-32110-01.

Enclosed is Amendment No. 10 to your U.S. Nuclear Regulatory Commission (NRC) Material License No. 21-32110-01 for Heart Rhythm Clinic of Michigan in accordance with your requests dated June 28, 2019 and October 3, 2019. Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the NRC Region III office at (630) 829-9887 so that we may provide appropriate corrections and answers.

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We

strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

In accordance with Title 10 of the *Code of Federal Regulations* (CFR) Section 2.390, a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from ADAMS, accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

Magdalena R. Gryglak
Health Physicist
