Docket No. 50-313
License No. DPR-51
Fire Protection
(File: 1510, 2040)

Gentlemen:

The following is provided to inform you that we will be able to provide an emergency power source for all fire detectors at ANO-1. Since our letter of January 10, 1979 our engineering staff has located existing conduits that will permit us to provide emergency power to the detectors that we had requested an exemption for in the above referenced letter.

This letter supersedes the information provided in our January 10, 1979 letter.

Very truly yours,

Donald A. Rueter
