Docket No. 50-334, License DPR-66
Radiological Effluent Technical Specifications

Gentlemen:

Your letter of November 15, 1978 relative to the Radiological Effluent Technical Specifications requested that the Duquesne Light Company submit a license amendment application to incorporate the requirements of 10CFR Part 50, Appendix I into the Beaver Valley Power Station Technical Specifications by March 15, 1979. While considerable effort has been expended to meet the NRC schedule, the proposed document will not be ready by the requested submittal date. The amendment application will be forwarded to you as soon as internal review is completed.

Very truly yours,

C. N. Dunn
Vice-President, Operations
