Subject: Request for Additional Information (RAI) - License Amendment Request Dated September 4, 2019 - Mail Control 615304

Importance: High

Mail Control Number: 615304
Docket Number: 030-31110
License Number: 19-00294-24

Travis W. Lindeblad, Radiation Safety Officer
Department of the Army
U.S. Army Medical Research Institute of Chemical Defense
8350 Ricketts Point Road
Aberdeen Proving Ground, MD 21010-5400
Office: 410-436-1831, travis.w.lindeblad.civ@mail.mil

Dear Mr. Lindeblad,

This is in reference to your letter application signed September 4, 2019, requesting for an amendment of Nuclear Regulatory Commission (NRC) License No. 19-00294-24 (amendment 9), Docket No 030-31110, and Mail Control Number 615304. In order to continue our review, we need the following additional information:

1. Please provide the last leak test result for each of the three devices (APD 2000 serial number 2977, ICAM: Z47-M-00030, and ACADA: GY1 965-D-00047G, GY1-965-D-00047H) that were shipped from your possession.
2. Please provide the storage locations of these three devices prior to shipping to include building and room location.
3. Requests for licensing amendments must be in the form of a letter, or on NRC Form 313, and signed and dated by a licensee certifying official that represents the licensee's management with the authority to resource the radiological safety program to fulfill regulatory requirements and the authority to appoint a Radiation Safety Officer (RSO). Your request of September 4, 2019, was in the form of a letter that was signed and dated by yourself as RSO. This is only allowed if the RSO is also a Manager/ Owner Operator or when the certifying official has provided you with a letter delegating the authority to act at the certifying official to you as the RSO. Please either have the certifying official provide you with a letter delegating you the authority to act as the certifying official or have that person sign and date the reply letter to this request for additional information.

We will continue our review upon receipt of this information. **Please reply as soon as possible** but no later than 30 calendar days from the date of this e-mail. **Your reply must be an originally signed and dated letter by the certifying official.** For expedience, please reply by **pdf attachment to an email** sent directly to R1DNMSMail.Resource@nrc.gov with james.cassata@nrc.gov on the copy to line of the email. Start your body of the email with the following three lines for tracking purposes.

An electronic version of the NRC's regulations is available on the NRC Web Site at: www.nrc.gov . Additional information regarding use of radioactive materials may be obtained on the NRC Web Site at: <http://www.nrc.gov/materials/miau/mat-toolkits.html> . This site also provides the link to the toolbox for updated information on the revised regulations for naturally-occurring and accelerator-produced radioactive materials (NARM).

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this email correspondence will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web Site at: <http://www.nrc.gov/reading-rm/adams.html> . Please be aware that you may request that certain portions of your submittal to NRC be withheld from public disclosure as proprietary information. To do this, you must execute an affidavit as specified in 10 CFR 2.390. You must list all portions that you wish to be held proprietary, along with your reasoning as to why that is appropriate. While it is allowable, please refrain from submitting proprietary information in support of a license unless necessary. Keep in mind that all NRC licenses are considered to be in the public domain, and therefore may be viewed by any member of the public who requests to see them.
