Mr. Harold Denton
Nuclear Regulatory Commission
1717 H Street, N.W.
Washington, D.C. 20555

Dear Sir:

I would like to know why more nuclear plants are being licensed when every few days we hear that another one is leaking - of course this leakage, tho radioactive, presents no danger! Do you think we are so gullible that we believe this?

Solve the present problems before creating new ones.

Sincerely,

Evelyn C. Carlberg
