

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D. C. 20545

January 11, 1979

MEMORANDUM FOR: Norman M. Haller, Director, Office of Management  
and Program Analysis

FROM: Norman C. Moseley, Director, Division of Reactor  
Operations Inspection, Office of Inspection  
and Enforcement

SUBJECT: STAFF VIEWS ON RESULTS OF SURVEY OF USES OF  
WASH-1400

This is an interim response to Mr. Gossick's December 20, 1978, memorandum to Office Directors.

The requested survey of the staff of the Office of Inspection and Enforcement is partially completed. It has been delayed because of travel and leave. A total of 24 staff members are yet to be surveyed. It is expected that we can provide complete information by January 26, 1979.

The comment of one staff member is enclosed. A comment statement by another staff member is being rewritten for clarity. It will be provided as soon as this is done. No other comments have been made by the remainder of the staff which has been surveyed.
