SUBJECT: ADDITIONAL RELEASE OF SUSQUEHANNA
STATION MATERIAL, Dkt. 50-387

Enclosed is an excerpt of part of one page from the Project Manager's Notebook on the Susquehanna Station which is to be made available to the public in the PDR and the local PDR. Like the ten documents enclosed in my memorandum of January 16, 1979, this page was specifically requested by counsel for the Gulf Oil Corporation. The Project Manager, Sydney Miner, specifically approved its release on January 17, 1979.

- 7 Apr 75 I called Tom Feltis, Ed Beckwith & Neil Coddington to discuss the press release by PPL which states that work associated with construction of the suspension chimney has been suspended pending resolution of certain open concerns. I asked that a copy of the release be referred to me and was advised that other work would continue and that the work being suspended was not scheduled to begin until May anyway.
- 8 Apr 75 I obtained copies of the press release and report and prepared a background memo after discussions with Tedesco, Laman, Kunkin, Coddin & Slagov.
- 11 Apr 75 At Bill's direction I called PPL (Neil Coddington) to request that they come in with Finnsrud and Lector (Chairman) on Friday 12 Apr to tell us the background on their stop work decision - how they concluded necessary & why. Neil will call back tomorrow.
