

Dear ~~Friend~~ People,

POOR ORIGINAL

It has come to my attention
that the Diane Ashton November Terror
Prize in Swiss Office, Cal. may be
be granted a license to operate
as a citizen of the state of California
and of the U.S. I urge my official
to this.

The plant is situated 2 1/2 miles
from an large active earthquake fault.
The Hogri fault, this is dangerously
near, and the granting of such a
threat, a license to the state of us
and our children would be terribly
unacceptable.

I urge you not to grant
a license to the Diane Ashton
of our state and nation.

Noted by card. H.S.

In haste & hope,
Dianne Ashton
