Mr. R. J. Gary, Vice-President  
Texas Utilities Generating Company  
2001 Bryan Tower  
Dallas, Texas 75201

Dear Mr. Gary:

This is in response to your request for our review and comment on the Comanche Peak Steam Electric Station Environmental Report, Operating License Stage, Glen Rose, Somervell County, Texas.

We note that the National Register of Historic Places was consulted and historical sites and landmarks in the immediate vicinity identified. A field and literature search of the area was conducted and archeological sites identified. We wish to commend the Texas Utilities Generating Company on these efforts and to request that the Texas State Historic Preservation Officer, Mr. Truett Latimer, Texas Historical Commission, P. O. Box 12276, Capitol Station, Austin, Texas 78711, be given the opportunity to review and comment on this project. Any comments or concerns that he may express should be addressed. Recreational areas and facilities in the vicinity of the project should be identified and any potential impacts on them addressed in detail.

If we can be of any further assistance, please do not hesitate to contact us.

Sincerely yours,

**ROLLAND B. HANDLEY**
