SPLED-E

Mr. Wm. H. Regan, Jr., Chief
Environmental Projects Branch 2
Division of Site Safety and
Environmental Analysis
United States Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Regan:

This is in response to a letter from your office dated 12 April 1979 which requested review and comments on the Environmental Data Statement for the Palo Verde Nuclear Generating Station Units 4 and 5, Project Applicant: Arizona Public Service Company, et. al.

The proposed plan does not conflict with existing or authorized plans of the Corps of Engineers. We have no comments on the environmental data statement for the proposed action.

As consultants to the Maricopa Association of Governments in preparation of their Section 208 water facility management plans for the metropolitan area of Phoenix, we are vitally interested in your plans for the use of reclaimed wastewater for the cooling of Units 4 and 5. We would like to receive all information which you release for public review pertaining to that subject.

Thank you for the opportunity to review and comment on this statement.

Sincerely yours,

for Norman Arno
