SUBJECT: THREE MILE ISLAND NUCLEAR STATION UNIT 1
DOCKET NO. 50-289

Dear Mr. Giambusso:

Your letter of December 15, 1972, concerning the performance of analyses to determine the consequences of postulated pipe failures outside of the containment structure requested that we provide the Commission with a proposed submittal date for this information.

Upon review of the general information request, Met-Ed has determined that an amendment can be filed by March 15, 1973. The amendment will contain (1) the required analysis, (2) a description of any proposed modifications, and (3) the estimated schedule for design, fabrication and installation of the modifications deemed necessary.

Very truly yours,

J. G. Miller
Vice President
