Subject: James A. FitzPatrick Nuclear Power Plant  
Docket No. 50-333  
Additional Members to the Safety Review  
Committee

Dear Sir:

Enclosed for filing are three (3) signed originals and  
nineteen (19) copies of a document entitled, "Application for  
Amendment to Operating License", and attachments thereto.

This application seeks to amend Section 6 of Appendix A of  
the Operating License to incorporate an expanded membership in the  
Safety Review Committee and to rewrite the SRC section into the  
format of the General Electric Standard Boiling Water Reactor  
Technical Specification.

In accordance with 10 CFR §170.22, the Authority has classified  
this application as Class II because the requested amendment has  
no safety or environmental significance. Therefore, as required  
by the regulation, enclosed is a check for \$1,200 for the filing  
fee. This payment is being made under protest and the Authority  
reserves the right to challenge the validity of the imposition of  
these fees and the basis for the determination of the amount of the  
fees.

In support of this application we are enclosing forty (40)  
copies of the Safety Evaluation corresponding to the proposed  
Technical Specification changes.

Very truly yours,

1553 233
