WASHINGTON, D.C. 20555

December 27, 1979

In the Matter of
HOUSTON LIGHTING AND POWER COMPANY
(Allens Creek Nuclear Generating Station, Unit 1)
Docket No. 50-466 (CP)

Ladies and Gentlemen:

After reviewing the copy of the Protective Order attached to Applicant's Motion for Protective Order filed on October 22, 1979, and after consulting with Mr. Doherty, Applicant is requested to respond to the following questions: (1) Was the document entitled "Assessment of BWR Mitigation of ATWS (NUREG-0460 Alternate No. 3), May 1979, actually the document that these two parties agreed should be the subject of the Protective Order? (2) Was this the document that was referred to in the proposed Protective Order as having been developed by the General Electric Company in response to Interrogatory 1 of Doherty's First Set of Interrogatories? (3) Why does this document bear a NUREG number and how does it relate to Vol. 3 of NUREG-0460, December 1978?

The Board will not issue a Protective Order until Applicant, after consulting with Mr. Doherty, advises that the aforementioned document has been accurately cited and is the actual document for which confidentiality is sought.

Very truly yours,

Sheldon J. Wolfe
