DOCKET NUMBER
PROD. & UTIL. FAC. 50-289

U. S. Nuclear Regulatory Comm.
Washington, D.C., 20555

Attn: Secretary of the Comm.
Re: Metropolitan Edison
Unit #1

Dear Sir:

This is to request your favorable consideration for returning Three Mile Island, Nuclear Unit No. 1 to operating capacity. The performance is needed and Met-Ed has suffered such fiscal losses already, that it seems discriminatory to unduly inflict further hardships upon this company, who were certainly not solely to blame for the nuclear accident at Unit No. 2 last spring.

Acknowledged 1/24/80

(over)

H 002056 095

2.

Trusting this will meet with
your prompt approval, I remain,

Sincerely,

Ann Tipton
