Attention: Mr. Charles E. MacDonald, Chief
Transportation Branch

Gentlemen:

Subject: Request for License Amendment, Docket 70-1810, SNM-1506

The Westinghouse Electric Corporation hereby requests an amendment to License SNM-1506, Docket 70-1810 to modify item 6, authorized materials, to include material subject to the requirements of 10 CFR Part 73.

The requested change is necessary to continue the NRC authorization for Westinghouse shipments of spent fuel. As you are aware, recent NRC rule changes to 10CFR73 which were promulgated without public comment, now subjects spent fuel to safeguards requirements, thereby removing spent fuel from the materials authorized for shipment by Westinghouse under License SNM-1506.

Please send me the amendment at the above address.

Please find enclosed a check in the amount of \$110.00, payable to the U. S. Nuclear Regulatory Commission as required by 10CFR170.31, paragraph J.

If you have any questions concerning this matter, please write me at the above address or telephone me on 412-373-4652.

Very truly yours,

Ronald E. DiPiazza
