

JAN 31 1980

MEMORANDUM FOR: R. S. Budnitz, Director, RES
N. C. Moseley, Director, DROI, IE (2)
H. D. Thornburg, Director, DRCI, IE (2)
D. B. Vassallo, Acting Director, DPM, NRR (5)
F. Schroeder, Acting Director, DSS, NRR
R. C. DeYoung, Director, DSE, NRR
D. G. Eisenhut, Acting Director, DOR, NRR (2)

FROM: W. M. Morrison, Assistant Director
for General Engineering Standards
Division of Engineering Standards
Office of Standards Development

SUBJECT: REGULATORY GUIDE REVIEW REQUEST

1. Title: Regulatory Guide 1.xxx, "Nuclear Power Plant Simulators for Use in Operator Training"
2. SD Task Leader: J. S. Wiebe
3. SD Task Number: RS-110-5
4. Cognizant Individuals: P. F. McKee, IE; J. J. Holman, NRR; W. S. Farmer, RES.
5. Requested Action: Review, comment and make recommendations.
6. Requested Due Date: February 15, 1980.
7. Background: The ANS 3 committee is revising ANS 3.5 "Nuclear Power Plant Simulators for use in Operator Training." The Division of Engineering Standards has requested ANS to accelerate revision of ANS 3.5 and have a draft available for endorsement by April 15, 1980. Until the draft standard is available, the draft regulatory guide will be written as if to endorse ANSI/ANS 3.5-1979, the published version of the standard. Copies of the published version of the standard are in limited supply. Copies are available in the Phillips (4 copies) and Willste (1 copy) libraries. To help with your review of the proposed regulatory guide, a copy of the standard is attached.

JAN 31 1980

The ANS 3.5 standard and the endorsing regulatory guide are not intended to make the determination of whether or not specific plant simulators are needed for each plant. The reference plant is used as a means of comparing the simulator to an actual plant, but an evaluation of the desirability of training operators from other than the reference plant is not made and is beyond the scope of the standard and this regulatory guide.
