

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

~~DCS PDR~~
TERA

DEC 15 1979

DOCKET NO.: 40-3453

FACILITY: Atlas Minerals Moab Uranium Mill

SUBJECT: MEETING OF DECEMBER 20, 1978, BETWEEN ATLAS MINERALS AND ITS
CONSULTANTS AND NRC

The purpose of this meeting was to discuss Moab Wash and the placement and amount of riprap needed to stabilize the tailings pile against floods on Moab Wash. The criteria upon which the riprap design would be based were discussed and agreed to at the meeting. These criteria were then incorporated into the license renewal dated April 23, 1979, as Condition 16.
