Dear Mr. Spencer:

In accordance with your letter and notice of violation of December 7, 1981, The following steps have been taken to insure future compliance.

The Radiation Safety Committee met and it felt that at the completion of each weekly survey that I, as Radiation Protection Officer, should personally see and initial the survey sheets. This is now being done as part of our standard procedure. In this manner I, as the responsible party, would know immediately if the surveys were not being performed and could take prompt action.

I trust the following action meets with your approval.

Sincerely,

Kenneth G. Broadhead
