I want to be on record
that I oppose the
opening of the Diablo Canyon
Nuclear Power Plant. I
feel it is unsafe due to
earthquake hazards &
waste disposal problems.
I spoke out at a hearing
last year & do not know
what else to do.

I feel ~~that~~ there is even a
greater reason. It is not
morally right for us to
endanger an area & its
people for the next 250,000
years. Who will "watch" the
waste — who will protect
the future — it must be
us. You must find other
sources of power. Spend the
billions towards that end.
