Mr. Joseph M. Hendrie, Chairman
Nuclear Regulatory Commission
Washington, DC 20555

Dear Mr. Hendrie:

On Friday, May 2, 1980, the American Civilization Class of Langley High School will sponsor its annual series of Seminars on American Realities (SOAR). These fifty-minute seminars provide the students with an excellent opportunity to become informed about a wide variety of topics dealing with political, social, economic, and cultural aspects of today's society. Our student body of over twenty-one hundred participates enthusiastically in this event; many, choosing from over fifty speakers, attend lectures the full six periods.

We feel that your participation would be a valuable contribution to our program. Please feel free to choose any topic. We can provide any media equipment you may require. Although no funds are available for speakers, morning coffee and lunch will be provided.

We realize that a person in your position has many demands on his time. However, the students can learn much from your expertise and experience. Please let us know if you can join us by completing the enclosed form and returning it at your earliest convenience.

Sincerely yours,

Cliff Hendrix
