Mr. Clifford A. Haupt
Project Manager EP-1
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Subject: Carroll County Units 1 and 2
Additional Archaeological Information
NRC Docket Nos. S50-599 and S50-600

Dear Mr. Haupt:

Dr. T. Gilbert of Argonne National Laboratory requested the following additional archaeological information which has been transmitted to him under separate cover:

1. A letter from Charles Bareis to W. J. Rolf, dated November 15, 1971, relating to an archaeological survey at the LaSalle County site.
2. A copy of the report, "Archaeological Survey of the Transmission Line Corridor Pipeline Areas", dated March 13, 1975, and prepared by the Foundation for Illinois Archaeology, for LaSalle County Station.
3. The archaeological survey of the Braidwood Station, "Archaeological Assessment of the Braidwood Nuclear Station, Will and Kankakee Counties, Illinois", prepared by R. Bruce McMillan, Curator of Anthropology, Illinois State Museum, Springfield, Illinois, referenced in Appendix 7, Item 14.7 of the Braidwood Station Environmental Report, July, 1973.
4. "Archaeological Survey at Kankakee River Facilities of the Braidwood Nuclear Station, Will County, Illinois", by Thomas Holien, Andrew L. Christenson, and William L. Weedman, September, 1977.

In addition, Dr. Gilbert requested an archaeological survey or report on the Quad Cities site. However, an exhaustive review of all Quad Cities records did not produce such a survey or report.

As previously indicated to Dr. Gilbert, the subject archaeological information is not for public disclosure and should be withheld from public disclosure in accordance with 10 CFR Section 2.790 of the Commission's regulations.

Please address any questions that you might have concerning this matter to this office.

Very truly yours,

W. F. Naughton
Nuclear Licensing Administrator
Pressurized Water Reactors
