Mr. Walter P. Haass, Chief
Quality Assurance Branch
Division of Project Management
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. Haass:

SUBJECT: Northeast Utilities Topical Program NU-QA-1 Rev. 3A

This will serve to notify you of a recent organization change in Northeast Utilities Service Company as required by your letter of acceptance for our Topical Program of March 13, 1979. The changes were announced to be effective February 1, 1980 and provide two Assistant Vice Presidents reporting to the Vice President of Nuclear Engineering and Operations.

The Assistant Vice President - Generation Engineering and Construction will be responsible for all Engineering, Design, and Construction of all new generating facilities, as well as all backfits and betterments to existing facilities.

The Assistant Vice President - Nuclear and Environmental Engineering will be responsible for all nuclear plant support functions including licensing, fuel management, safety and reactor analysis, environmental programs, quality assurance and reliability engineering.

Additional appointments are to be announced in March, and a complete description of the organization will be submitted when it becomes available at that time. All changes will be incorporated in the next revision of our Topical Program Report.

If you have any questions in the interim, please contact Mr. D. G. Diedrick, (203) 666-6911, Extension 5435.

Very truly yours,

A handwritten signature in cursive script that reads "William G. Council".

William G. Council
Vice President
Nuclear Engineering & Operations
