Dear Senator Glenn,
I just read that plans to
build a ~~nuclear power plant~~ at
the abandoned naval landing
field in Charleston, R.I. have been
dropped. Because of legal red
tape the New England Power
Company announced their
decision earlier this week.

In consideration of our fuel
situation in this country, action
like this must make the rest
of the world think we are being
governed by a bunch of fools.

Sincerely
Paul Tobergte
