K. R. Goller, Assistant Director for Operating Reactors, DOR

SCHEDULES FOR BROWNS FERRY RELATED MODIFICATIONS AT DRESDEN,  
QUAD CITIES, ZION AND COOK

The enclosed progress reports from Commonwealth Edison and  
American Electric Power are transmitted for your information.  
These reports required by IE Bulletin 75-04A are related to  
fire protection modifications (at the Commonwealth Edison plants)  
and alternate shutdown modifications (at Cook). These are the  
only two licensees who are presently continuing to report non-  
completion modifications planned in response to IE Bulletins  
75-04 and 75-04A which dealt with follow-up of the Browns Ferry  
fire.
