U.S. Nuclear Regulatory Commission  
Attn: Document Control Desk  
Washington, DC 20555-0001

Subject: Reply to a Notice of Nonconformance, Docket No. 99901377, Report No. 2019- 201

Reference: Nuclear Regulatory Commission Vendor Inspection Report of Curtiss-Wright Enertech,  
No. 99901377/2019-201 and Notice of Nonconformance 99901377/2019-201-01

The purpose of this document is to respond to the Notice of Nonconformance referenced above resulting from the NRC Vendor Inspection at the Curtiss-Wright Enertech facility in Brea, California on July 22 through July 26, 2019.

The NRC Vendor Inspection Staff issued NON 99901377/2019-201-01 and Enertech issued Corrective Action Request (CAR) No. 2182 to address the nonconformance.

Enclosed with this letter is evidence that the Enertech Corrective Action Request No. 2182 was closed Sept. 30, as supplier qualification documentation was corrected; a documented extent of condition determined there was no impact on the product quality, to our customers, or safety.

If you have any questions regarding this issue, please contact me at your convenience via email at [rnav@curtisswright.com](mailto:rnav@curtisswright.com) or by phone at 714-982-1872.

Respectfully submitted,

Rosalie Nava  
Director Quality Assurance, Enertech
