Date: Tuesday, October 22, 2019 6:06:41 PM

Please do not allow disposal of transuranic waste (GTCC) in the Low Level Nuclear Waste site in Andrews County, Texas. It is such a danger for our state, especially for anyone who lives in West Texas, not to mention the employees who work there. There is too much potential for human error, as has already happened at the WIPP site in Eddy County, New Mexico in 2014.

Thank you for your consideration.
