Subject: MODIFICATION 4 to APPLICATION AMENDMENT S-8

PHYSICAL INVENTORY OF UO PELLETS & CERTAIN CONTAINERS OF SNM

With reference to activities authorized by SNM-1097 at the General Electric fuel fabrication plant in Wilmington, North Carolina, GE recently submitted to you a request for authorization to revise the Fundamental Nuclear Material Control (FNMC) Plan for this plant related to the handling of UO2 pellets and certain containers of special nuclear material (SNM) at the time of a physical inventory. (See references 2-5.)

At the request of your staff, we have incorporated some of the information included in these submittals in the attached revised FNMC Plan pages.

Pursuant to 10 CFR 2.790(d), General Electric requests that the attachments to this letter be withheld from public disclosure since it contains information which identifies General Electric's procedures for safeguarding licensed special nuclear material.

General Electric personnel would be pleased to discuss this matter with you and your staff as you deem necessary.

Very truly yours,

GENERAL ELECTRIC COMPANY
