Fire Protection Test Program

Gentlemen:

This is to inform you that the scheduled date for conducting the Calvert Cliffs cable and pipe penetration fire tests is March 5, 1980 at Southwest Research Laboratories in San Antonio, TX. With regard to the comments on our test procedure that Mr. Tim Lee of NRC Staff discussed with us via telephone on February 12, 1980, it is not clear to us if NRC would like for us to respond to the comments in writing. If that is the case, we would appreciate your reviewing the comments and our verbal responses and then formally transmitting any remaining or revised comments to us in writing so that we may provide a formal response.

Very truly yours,

cc: J. A. Biddison, Esquire  
G. F. Trowbridge, Esquire
