

UNITED STATES OF AMERICA
NUCLEAR REGULATORY COMMISSION

CATHOLIC UNIVERSITY OF AMERICA

Operating License R-31

DIRECTOR'S DECISION UNDER 10 CFR 2.206

By petition dated October 3, 1979, P. Kelly Fitzpatrick requested the Nuclear Regulatory Commission to suspend the license issued to Catholic University, to conduct an investigation and inspection of alleged violations of the operating license and to issue a show cause order why the license should not remain suspended pending a thorough review of the licensee's operations. Notice of receipt of this petition was published in the Federal Register on November 1, 1979 (44 Fed. Reg. 62970).

An inspection and investigation of activities under the license held by Catholic University was conducted. Based on the findings of that investigation, set forth in Investigation Report No. 50-77/79-02, I have concluded that the allegations raised in the petition are either unsubstantiated in fact or not violations of Commission requirements. Consequently, the requests to suspend Catholic University's license and to issue a show cause order are denied.

A copy of this determination will be placed in the Commission's Public Document Room at 1717 H Street, N.W., Washington, D.C. 20555.
