Region III
Glen Ellyn, Illinois 60137

Dear Sir:

In response to IE Bulletin No. 80-22 we wish to advise that TWA is not licensed to use Automation gamma ray radiography equipment nor do we have such equipment.

All radiographers at TWA have been alerted to the possibility of connector malfunction. Further recurrent training programs are provided and each individual must demonstrate proper operating and emergency procedures.

Very truly yours,

for R. E. Haney

Director
Government and Industry Liaison
