Subject: Revision to the Request for Modification of Technical Specifications 3.5 and 5.1.2 of Renewed Facility Operating License No. R-75 of The Ohio State University Research Reactor (EPID NO. L-2018-LLA-0231)

By letter dated August 27, 2018 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML18242A075), Ohio State University (OSU) submitted a license amendment request (LAR) to modify technical specifications (TSs) 3.5 and 5.1.2, associated with the OSU Research Reactor (OSURR) ventilation exhaust fan capacity and restricted area definition, respectively. The OSURR staff has since concluded that there is no need to revise the definition of the restricted area as written in TS 5.1.2. Therefore, the OSURR staff would like to drop the request to have TS 5.1.2 modified, but would like to proceed with the modifications to TS 3.5 as written in the original letter and subsequent RAI response letters.

If you have any questions on this matter, please contact me at Kauffman.9@osu.edu or at 614-688-8220.

I declare under penalty of perjury that the foregoing is true and correct.
Executed on 22-October-2019.

Sincerely,

Andrew Kauffman
