Washington Navy Yard, DC 20376-8021

SUBJECT: APPLICATION FOR REVISING THE MODEL NUMBER S5G REACTOR
COMPARTMENT DISPOSAL PACKAGE – ACCEPTED FOR REVIEW
(EPID L-2019-LLA-0175)

Dear Mr. Kuprenas:

By letter dated August 5, 2019 (Agencywide Documents Access and Management System Accession No. ML19227A143), you submitted an application for revising the Certificate Number (No.) 9788, to include the S5G reactor compartment as authorized contents of this package. The application appears to contain the information needed for our technical review. This letter acknowledges acceptance of your application.

We have established a schedule for the review and estimated that the staff may need approximately 250 hours to complete its review. The schedule allows for the staff to issue the first request for additional information (RAI) in November 2019 and, if a second RAI is not needed, a certificate of compliance in March 2020, based on you responding to the first RAI in early January 2020. In general, no additional changes to the application should be submitted except for changes resulting from your response to an RAI.

Please reference Docket No. 71-9788 in future correspondence related to this action. The staff is available to meet and discuss your proposed responses. If you have any questions regarding this matter, please contact me at (301) 415-6999.

Sincerely,

/RA Daniel Doyle for/

Norma García Santos, Project Manager
Storage and Transportation Licensing Branch
Division of Fuel Management
Office of Nuclear Material Safety
and Safeguards
